

Gem and Mineral Club offers free demonstrations at Pioneers Park

What are some of the various gems and minerals found in the Great Plains?

How are gemstones prepared for jewelry?

Processes from the "rough" stone through the cutting, polishing, and finishing will be demonstrated by members of the Lincoln Gem and Mineral Club during a free, drop-in program from 1 to 4 p.m. Sunday in the Prairie Building at Pioneers Park Nature Center. The Nature Center is located on the west end of Pioneers Park.
