### WHAT TO SEE UPSTAIRS

In the Movie Room we will run three shows both Saturday and Sunday. The title of the show is..."THE STORY OF COPPER". This is of great interest to all ages.

Down the hall from the Movie Room is our Fluorescent display. This is a sight to see. The beauty of the "Black Light" brings out the hidden colors of the rocks it is shown on. Also for the first time shown will be a collection of rare and unusual fluorescent Cabachons.

-----

We want to thank all of the committees that have worked so hard in making this show a success.

Without the full co-operation of all that were connected with the show, we would not have been able to present a show of such high caliber.
