

The 2022 Show, “Agates Around the World” was dedicated to former long-time club member and world renowned author, the late Roger Pabian.

2022 SHOW

by Sharon Marburger (photos by Sharon Marburger)

The Club had a fabulous show this year. Lots and lots of people attended; there was a good amount of club members working; there were many spectacular exhibits; and the club was able to raise some money for various activities.

This year, we implemented, once again, voting by attendees to choose their favorite exhibits and determine which display was the most educational. The results are below.

This display of Minerals from the Congo by Omaha Club member Eric Fritzsich was voted the Most Educational

This quartz display by Mike and Donnette Stiles (who are not club members) won People's Choice First Place

2022 SHOW - CONTINUED

continued from page 4

This display of Crooked River Petrified Wood from Oregon by Brett Jurgens and James Marburger won People's Choice Second Place.

This display of Lake Superior Agates by Corey Beer won People's Choice Third Place.

Petrified Wood

Cabochons, Ammonites, Ocean Jasper and Misc. Beautiful Rocks

The photograph shows a museum display case with a wooden background. The title "MINERALS FROM ZAMBIA AND ZAMBIA" is prominently displayed at the top. Below the title, there is a large text block providing information about the minerals. The display is organized into several rows, each featuring a mineral specimen, a small photograph of the mine, and a label. The minerals shown include Malachite, Azurite, Hematite, and others. A map of Zambia is also visible, showing the locations of the mines. The display is well-lit and informative, providing a comprehensive overview of the minerals from Zambia.
