

DECEMBER ROCK PARTY

By Sharon Marburger

Wow! Did we have a blowout for the December Rock Party held at the Marburgers' on December 14. I believe we had a Rock Party record of at least 21 people! Thank you to everyone who attended and made the party fun.

Jim showed the juniors who attended how to do an end polish on a stone. He dug into his personal stash of Lake Superior Agates and gave one to each kid to grind and polish. The kids were thrilled!

Some of the adults also went downstairs to the "rock room" to observe and then work on their own projects once the lesson was done. I was busy and did not get many photos of the gathering. I did manage to get this photo with some finished cabochons.

The attendees were well-fed with smoked chicken and a variety of other foods brought for the potluck. There were only a couple of pieces of chicken left over, but there was so much other food, no one went hungry.

I want to acknowledge and thank the group of new members who attended the party, in addition to the usual folks. It was very nice to get to know you better in a relaxed environment. I truly enjoyed visiting and sharing stories of club exploits.
