

# CALENDAR

March 26, Friday--**Show Set-up Day!** Each and every able bodied club member is needed for this big project. Those of you who know the routine will be expected at our storage facility about 8 AM with your vehicles to help load & haul the cases, rocks and club displays down to Pershing to arrive there at 9 AM when we are scheduled to begin our preparations. The Show Committee list was published in your September 1998 Pick & Shovel and will be anxious to tell you where your help is needed. We normally start receiving our Dealers very soon after unloading the props. From then until the last display is in place many hands are needed. The Committee has done the planning and established a format, now it's the members turn to join in the excitement. See you all there!!

Remember that at 5 PM on Sunday, when the show officially closes, everything begins again--only in reverse and just as many able bodies are needed at that time.

April 24 Annual Scholarship Presentation to a student in the UNL Geoscience Program. Bethany Park, 7:30 PM, Cotner and Vine Streets. Coffee and Refreshments.

**LGMC SHOW - MARCH 27-28, 1999, Pershing Auditorium**  
(Our 41<sup>st</sup> Annual Show)  
"Reflections to Past Centuries"

## Nearby Shows to Visit

## 1999 REGIONAL SHOW SCHEDULE

### EASTERN FEDERATION

August 6-8

New Carrollton, Maryland

### SOUTH CENTRAL FEDERATION

August 21-22

Bossier, Louisiana

### ROCKY MOUNTAIN FEDERATION

November 19-20

Tucson, Arizona

### NORTHWEST FEDERATION

June 18-20

Hillsboro, Oregon

### MIDWEST FEDERATION

April 10-11

Columbus, Ohio

### CALIFORNIA FEDERATION

June, 18-20

Turlock, California

### SOUTHEAST FEDERATION /AFMS COMBINED

July 9-11

Nashville, Tennessee

## YOUTH NOTES

### SHOWTIME IS HERE!

The junior members at the Feb. meeting were full of great ideas for the 1999 show. We have had a fantastic junior booth in the past, and hope to outdo ourselves this year. Let's end the century with a bang!

Activities we will do:

- \* gemdig
- \* 25 cent spin-wheel
- \* 50 cent spin-wheel
- \* rock race
- \* hourly prizes
- \* fossil dig
- \* activities table

Juniors attending the show (we hope everyone!) will be assigned a specific time to be there with a family adult to help run the booth. Kay will contact you- or call her. Of course, we need other juniors working at the same time. We will do our best to rotate people so that everyone has a chance to do the things they are capable of doing.

In keeping with the show's theme, "Reflections to Past Centuries", junior members are encouraged to dress in costume or have a prop representing a past century. (You could be a caveperson or a dinosaur.) This is optional.

Maybe you have a hat or a bone that you could wear.

We discussed wearing fannypacks to put the money in, rather than having to always depend on a box. The fannypacks would be emptied when the person moved to a different job. If you have a fannypack, bring it if you want. Kay will have extras at the show.

For decorations, we are going to fill some clear balloons with small rocks and some of our prizes.

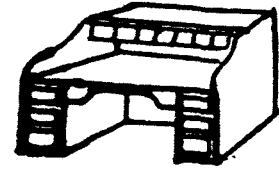

If you have a good idea for the free activity table, call Kay. We need something for all ages.

We decided to have hourly drawings, and also to have three prizes for the end of the show.

Our display case won't be complete without a display from each junior. It can be small, large, simple, or complicated. You might want to use a mirror for your display, "reflecting" past centuries. We have some new "jewelry" for the spin wheels, and welcome any "extra" specimens members are willing to share with us.

Look out 20th century, we're going out with a BANG!

## From The President's Desk

Hello LGMC Members:

I want to give a special thank you to the Parks, the Heffelbower's, Roger Pabian, Jim Atkins and me for help in putting on the very fine Geology Day at Pioneer Park. It was a nice Sunday, we had a moderate crowd. Some were very interested in the club. Others were interested in what we were showing.

As for the questionnaire, I have gotten back 13 by Saturday the 27<sup>th</sup>. I want to thank you for filling them out. As for the rest of the members please fill them out and send to me by the middle of March. I will publish the results in the April Pick & Shovel.

This is the month of our annual show "Reflections to Past Centuries". If all members help put on the show it should be a good one .

I hope to see you there as displayers, demonstrators, helping with the table covers, setting up cases, and making yourselves useful anytime Friday, March 26, after 9 A.M. until the show is ready for the opening.

On Saturday, March 20<sup>th</sup>, I will have an open house from 1 to 4 PM at my home, 2507 A St. to share suggestions for cases, displaying, lighting, etc. You may move the materials, rearrange, try other materials, or go for a Field Trip to my basement, or just visit. I am engaged in remodeling my home, hope to see some of you there.

Edward Ridge.

Note: Parking on 26<sup>th</sup> street or my driveway.

.....

### CLUB NOTES:

At the February club meeting we learned that Lois Everett, our club founder's wife and a life member herself, had fallen and broken a limb and was in the hospital. Talked with her a few days ago and Lois is at home after 12 days in the hospital, using a walker and wishing to thank all of you who sent cards and messages. We'd like to wish her a speedy recovery.

We also learned that member John A. Lewis was seen out at a favorite lunch buffet and appeared to be doing a great recovery. Hope to see you at this coming show, John.

Our members, the Spencer's, will be busy moving to a new location on the weekend of the show so will not be able to help with set up and tear down. We'll miss them but hope they have a safe and pleasant move. Enjoy your new location, Eunice & O.D.

**Show Time--"Reflections to Past Centuries"**

Each year our show seems better than the year before--although it is getting more difficult to top some of the 40 shows which have been produced here in Lincoln. Our Dealers are the best, we always have several fine Demonstrators, our Membership Booth tries to help keep everyone happy, the Admissions Desk gives courteous and efficient service, the Youth Booth gives a good variety of activities for young and older alike, our Displays are always outstanding and all of the Club Members try to make this a rewarding and memorable week end.

Displayers, if you don't have any reminders of Past Centuries why not show something from Past Decades--although all fossils, rocks & minerals are from many centuries ago. The more displays that we have the more ideas prospective members might conceive.

No Saturday night buffet this year but you are invited to go out to breakfast with our Dealers on Sunday morning at Old Country Buffet, 20<sup>th</sup> & O St, at 8 AM. We'll be treating the dealers and each member will pay their own tab.

Remember to sign in on Friday if you come to help for a few hours or if you plan to help tear down on Sunday, and pick up your Workers Pass to the show if you have no display so there will be no confusion when you come to enjoy the show. Scout and Student groups will be admitted with a leader for each 5-6 youth. Limited parking will be permissible on the south side of Pershing with a permit from the club. See you at the Show. Phyllis, '99 Show Secy.

\*\*\*\*\*

**geology day '99:** Once again we had only a limited number of club members participating but the space was full of interesting and educational exhibits and the people coming through had much to see and ask questions about. Karen Messenger was our Hostess again and once again had provided treats for us to share. She and the other park attendants were very cooperative. It was a wonderful spring like day and the park was full of people.

\*\*\*\*\*

**Belated news of a special field trip!** At Christmas season I received the following note from Grant Bennet and promptly filed it with my Christmas Mail instead of with Pick & Shovel copy--now I have found it and wish to share his enthusiasm with all of you--

Adventure Time

By Grant

What a great day. Was picked up at 8 AM by Roger Pabian. He asked me on an agate picking field trip. We met club members Bill and Betty White at the Table Rock restaurant.

The adventure began then. I'm glad Roger drove, me, I was lost after the first few miles. The four of us visited road cuts for miles around. Roger then led us to some streams and rivers. The gravel beds did yield some material.

Beautiful day but a chilly wind. After scouting for the better material we called it quits. Bid the White's goodbye and headed for Lincoln. Arrived at 6 PM.

Tired, but who complains when you spend the day with such good friends.

(Thanks for the contribution Grant. Editor)

LINCOLN GEM & MINERAL CLUB, INC. - BOARD OF DIRECTORS - Feb 3, 1999  
Kinkos @ 48th & Vine Sts. - 7:00 P.M.

Guests: Susan Taylor, Scholarship Chair & Dr. Norman Smith of UNL

First order of business: Discussion of procedure and amount of scholarships awarded by LGMC through UNL Foundation.

Discussion led by Dr. Smith & Susan Taylor.

Dr. Smith suggested more participation by students and their application for these awards. Also, the department now covers all the Geosciences, not just Geology Dept., therefore covering a broader spectrum of studies.

After an enlightening discussion, the conclusion was that we would consider the new plan involving student application, board making final choice of referrals, and 1 scholarship being presented each year in a greater amount, rather than 2 small ones.

This year only, UNL would contribute \$150. to our \$350. to make a \$500. award. Upon receipt of award, the student would present a short summation of his/her studies.

Dr. Smith & Susan Taylor will keep in contact and see that the new plan is implemented.

Regular meeting called to order by President

Minutes of previous meeting and Treasurer's report were approved.

No old business.

NEW BUSINESS: Ed announced that a survey will be included in this issue of the Pick & Shovel. All members are asked to return the surveys and indicate what type of activities, etc. they would like to make the Club more interesting.

Ed would also like to have an "Open House" at his home to show new members or anyone how to decorate a case and arrange their displays.

MEETINGS & DATES:

Feb. 27 - NCCE

March - SHOW

April 24 - Bethany Park Shelter House - Scholarship presentation

May 22 - dessert supper at Bethany Park

Sept - NCCE

Oct - Park - Halloween Party

Nov - NCCE - Election

Board Meeting - March 3, 7:00 P.M. at Kinkos

No further business, Meeting adjourned.

Respectfully submitted,

*Vera Lyman*  
Vera Lyman, Secretary

LINCOLN GEM & MINERAL CLUB, INC. - GENERAL MEETING - Feb. 27, 1999  
7:30 P.M. @ NCCE Beatrice Rm

Visitors - Greg & Annette Ford, guests of Marcia Hamilton.  
20 Members and 2 Juniors present.

January minutes were approved as printed with motion by Grant Bennett;  
2nd by Adeline Nólde. Carried.  
January Treasurer's report approved as printed with motion by Shirley R.  
2nd by Jim Atkins. Carried.

OLD BUSINESS: Final decision on Field Trip to Kansas City Show by Van.  
Not enough interest to make the plan feasible so idea was scrapped with  
motion by Phyllis P., 2nd by Kay J. Carried.

Scholarship: Discussion of Scholarship CD and the interest produced to  
finance Scholarships. After recommendation by Phyllis, a motion was  
made by Roger Pabian that we raise the initial amount of the Scholarship  
CD to \$ 10,000. so it will generate enough interest each year to finance  
the Scholarship that is awarded. 2nd by Kay Jurgens. Motion carried.

Reminder to mail or hand in President's Survey Card which was in your  
Pick & Shovel.

**NEW BUSINESS:**

the 1999 WHO'S WHO is ready. Be sure to get your copy from the Secretary.  
Also, Membership cards are ready - please get them from freasurer.  
54 paid adult, 3 Life, and 17 Youth members paid.

SHOW: March 27-28; Jim Marburger, Chairman  
Committee Meeting, Tues, March 9, 7:00 P.M. @ Kinkos-?.

COMMUNICATIONS: No regular March Meeting (SHOW)  
April 24 - Scholarship Presentation - Bethany Park Shelter - Coffee  
May 22 - Dessert Supper - Also at Bethany Park Shelter

Deadline for March Pick & Shovel will be March Board Meeting.

Respectfully submitted,

*Vera Lyman*  
Vera Lyman, Secretary

## Labels

As a subject, labels on rock, mineral, gem and fossils appears to be rather boring. There are a number of reasons to pay attention to what labels tell. To the uninitiated a label may tell what the specimen is, what it is composed of and where it came from. These are very worthwhile and useful data.

If one is exhibiting mineral or fossil specimens competitively under American Federation uniform rules, one will find out that accuracy in labeling makes up 30 to 50 percent of the scores awarded by the judges. That should be reason enough to be careful. I for one am skeptical about the actual educational value of competitive exhibits. A trophy winning case will undoubtedly pass on some accurate information to the viewer because the labels are correct. How much information is lost in producing the accurate, picture perfect label is another story.

Let us create a fictitious specimen---it can be a mineral, fossil or gem or whatever. If the specimen has been properly collected, it should have a field label. Many specimens will not as the collector who first obtains the specimen will likely obtain it from a second or third hand source. More than likely the specimen will have some label that identifies it and has some additional geographic and geologic data. Properly done, this label will stay with the specimen forever.

For various reasons, labels may not accompany specimens or much data may be lacking. The specimen may come from a locality that the miner wishes to keep confidential for business reasons. Obtaining a geographic fix may have been difficult in the past but high

quality maps and easy to use Geographic Positioning Systems are now available to provide much of this data.

Many collectors prefer to have the history of the movement of the specimen documented through the labels that accompany it. If someone were to offer an agate with the claim that it had been collected by M. F. Heddle in 1889 from the Blue Hole in Scotland, a series of old labels accompanying the piece would furnish proof. Comment cards that accompany the specimens and labels can be utilized to furnish additional information about the travels of the specimen. Information about the specimens that was once confidential can be added to the comment cards as it becomes available in journals.

A very fine specimen can be greatly enhanced in scientific value, historic value and economic worth because its history is preserved in the labels and comment cards.

Sometime back a very old and prominent collection was broken up and sold piecemeal. Many of the finer specimens went to an established museum but many of the lesser specimens were sold as specimens from the famous collection that was . To the dismay of many of the purchasers, the specimen was delivered in a shiny new plastic container with a computer generated label that read: Specimen from the So and So collection. None of the original labels were present---they had all been discarded by the dealer who acted as agent for the sale of the collection. A wise collector will keep all of the labels that came with the specimen and will generate new comments as data becomes available. The neat labels will be kept for show but the old ones will always stay with their specimens. Roger K. Pabian

**MIDWEST FEDERATION OF MINERALOGICAL & GEOLOGICAL SOCIETIES**

Member of the American Federation of Mineralogical Societies

Published monthly  
except July and August

MARCH, 1999 - Issue No. 379

KITTY STARBUCK  
7636 V Avenue East  
Victorburg MI 49097-9907  
Rock3312@aol.com**NEIL'S NOTES**

Signs of Spring abound around our acre. The days are longer; snow is melting; the Fall's unraked leaves are reappearing. A few robins are here, although I suspect they never really left. Sunshine helps dispel symptoms of Seasonal Affective Disorder (SAD). Spring will soon arrive (March 20).

It is time to re-oil the boots, sharpen the tools and head out to various collecting spots. Take along your new members, but be sure they are well versed in safety procedures and our code of ethics. Several sites have been closed to collectors during the past year because collectors didn't follow the rules. Unfortunately, these violators were experienced collectors.

I am happy to learn that several clubs have reached new plateaus with recent contributions to the AFMS Scholarship Fund. This is a very important program which benefits professional education in the geological sciences. I have talked to various recipients and they are grateful for the help. Contributions to the Scholarship Fund are excellent memorials for a club to make for deceased members. I urge all clubs to become contributors to the Fund. Individual contributions are also welcome.

I hope that all clubs have selected delegates to the annual meeting in Columbus, Ohio next month AND have sent in their registration and meal requests. There are several items of business to discuss including proposals to revise the election procedures. If your club does not plan to send a delegate, but has items it wishes to have presented, please notify the secretary in writing so that attention can be given to your concerns.

Spring also seems to be the time when schools request programs from clubs - at least in our area. School presentations, science fairs etc. are an excellent P.R. tool, and you may even recruit new members. You don't have to be a professional teacher to meet with students. I never met a rockhound who couldn't talk about our hobby. The kids will ask enough questions to keep you going!!

Try it.                    Until next time:

May the road rise to meet you  
May the wind always be at your back  
May the sun shine warm upon your face  
The rain fall soft upon your fields  
And until we meet again  
May God hold you  
In the palm of His hand

Happy St. Patrick's Day,

Advertising by rock-hobby business or interest is permitted with the approval of the Board. The rate is set at \$15.00 per full page; \$7.50 per 1/2 page; \$5.00 per 1/3 page; and \$3.75 per 1/4 page (min) per issue, paid in advance. These ads will be placed through the bulletin as space permits.

Subscription to the PICK & SHOVEL are \$10.00 per year mailed.

Dues to Lincoln Gem & Mineral Club are as follows:

|                          |   |            |
|--------------------------|---|------------|
| <b>Adult</b>             | (ages 16 and over)                              | \$10.00/yc |
| <b>Junior</b>            | (ages 12 to 16)                                 | \$2.00/yc  |
| <b>Family Membership</b> | (Husband, wife, resident children under age 16) | \$22.00/yc |

New memberships must be approved by the Board, after the applicant attends at least one meeting of the club and pays the above dues plus a \$5.00 registration fee.
